Re; Section 232 Exclusion Request

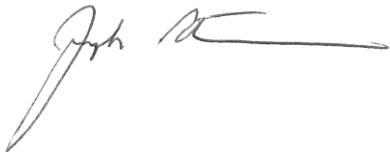

Dear Sir/Madam

As Dover Tubular Alloys, Inc. we are a United States domestic company that procures Chinese Seamless Stainless Steel Pipes and Tubes pipe from Changsu Walsin Stainless and Zheijiang Stellar Tsingshan, Chinese Pipe and Tube Makers, for our various applications. We procure these pipes and tubes from China) since these pipes and tubes cannot be produced in the United States of America. due to size limitations, in a quality suitable for our customers end use, or produced by a local mill approved by our end users, i.e. (Oil Majors, EPC Companies, Piping Fabricators, Chemical Companies, Paper and Pulp, and Machine Shops, Industrial Pump and various other usages). We strongly urge the United States Department of Commerce to grant immediate exclusions for list of pipes and tubes shown below.

This letter of SUPPORT is issued to our direct supplier as well as to their Importer of Record. This request for exclusion covers the following product categories and sizes and grades, including the HTC codes.

Please feel free to contact us directly for any questions and or clarifications. A quick decision on our exclusion request is absolutely necessary as we have material on order and en-route to America currently. Any delay in the exclusion request procedure would hamper our ability to serve our customers. To our understanding, the products we purchase are not produced in the United States of America, or are not produced in sufficient quantity or quality to satisfy our requirements. To our knowledge, these products have nothing to do with the National Security Issues of the United States of America as defined under the Section 232 Proclamation issued by the President of the United States of America, on or about March 8th, 2018.

Sincerely yours,

Joe Rattner

President
Dover Tubular Alloys, Inc.
